German - A1 Level

Professional Objective

Graduated in Computer Engineering and currently pursuing a Master's in Big Data at the University of Santiago de Compostela, about to complete my studies with the submission of my Master's Thesis, my goal is to steer my career toward research through a PhD in Information Technology. I am passionate about natural language processing applied to social media, an area where my interests in massive data, artificial intelligence, and the social impact of technology converge.

Technical Skills

Data Science & Analysis.

- **Python**: Web Scraping (Beautiful Soup, Scrapy), Pandas, NumPy, graphic visualization (Matplotlib).
- **Machine Learning**: Scikit-learn, Hugging Face Transformers, model fine-tuning (BERT).
- **R**: Statistical analysis and graphic visualization (ggplot2).
- **Analysis tools**: Jupyter Notebook, Tableau, Power BI.
- **Natural Language Processing** (NLP): text classification, sentiment and emotion analysis, multimodal models.

Full Stack Development.

- **Frontend**: React, JavaScript (ES6+), HTML5, CSS3, Bootstrap 5
- **Backend**: Node.js, Express.js
- **Databases**: MongoDB, Mongoose, PostgreSQL
- **APIs**: RESTful APIs.

Programming languages: C, C++, Java.
Development tools: Git, npm.

Work Experience

March 2025 - June 2025

Internship - Backend Developer

Gsertel (Televés Corporation) - Santiago de Compostela, Spain

Description: Engineered a PDF generation backend service in Node.js for a Network Management System (NMS) and integrated it with the existing frontend via a RESTful API.

Projects

2026 — **Detection of Personality Disorders Based on Narratives**

CiTIUS - Research Center for Intelligent Technologies

Description: Construction of a multimodal corpus from Reddit for ADHD detection using NLP techniques and language models (BERT, LLaVA-NeXT). Includes emotion, sentiment, and linguistic pattern analysis. Master's Thesis (TFM).

GitHub: https://github.com/sotelo-s/ADHD-Reddit-Research

2025 — **Gateway - Web Platform for Training Planning**

HP Technology Observatory

Description: Designed and developed a full-stack web platform for educational planning as a Bachelor's Thesis Final Year Project.

Demo: https://usc-gateway.onrender.com/

Education

2025-Now — **Master's Degree in Massive Data Analysis Technologies: Big Data**

University of Santiago de Compostela, Spain

- **GPA**: 8.31/10 (28/06/2026)

2021-2025 — **Computer Engineering**

University of Santiago de Compostela, Spain

- **GPA**: 8.23/10
- With **High Honors** in: Calculus and Numerical Analysis, Databases I, Operating Systems I, Operating Systems II

Courses and Certifications

2026 — **A1 Level Certification in German**

Centre for Modern Languages, Santiago de Compostela, Spain

2024 — **C1 Level Certification in English**

Centre for Modern Languages, Santiago de Compostela, Spain

2021 — **Information Competencies Course. Basic Level**

University of Santiago de Compostela, Spain
